Part II.			
SUBSTANCE OF INTERVIEW DESCRIBING THE GENE			
Examiner contacted applicant's representative to request exam renders claim indefinite. The applicant's representative authority.	iners amendment of claim 48, who zed examiner's amendment to del	ere term "greater than about" ete term "about"	
Part III.	,		
 It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability. It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

See

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant's representative contacted the examiner of record with question why the amendment after final, which incorporated obtjected claim into rejected claim did not put the application in condition for allowance. In a response response the examiner indicated that the rejected claim is in product by process claim and the applicants incorporated limitation of a process, which did not chenge the status of the rejected claims, since the patentability is given to the product and not to the process by which it is made. In addition the examiner indicated that the novelty of the application lies in the fact that the present invention utilizes mixtures of ester quats. Amending rejected claims to read on mixtures of ester quats would actually render these claims redundant since it would repeat the limitations of claims already indicated as allowable..
